

Burnbrae Primary School Pre-Consultation

Update 2

Thank you to everyone who attended the drop-in session which took place from 2-7pm at Burnbrae Primary School on 15th March 2017. This was the third in a series of three drop-in sessions.

At the drop-in event on 15th March we shared some emerging models as part of the pre-consultation process and invited feedback from you about the educational benefits and the adverse impact of each of the three models. There was also the opportunity to nominate a new model. For those who were unable to attend we also placed a copy on the school website.

At the event we gathered lots of comments about the educational benefits and any adverse effects and officers are now in the process of drawing this information together. There is still time to comment on each of the models proposed and this information is available on the school website: <http://burnbrae.mgfl.net/>

If you would like to take part, the deadline date for the return of these templates is **12 noon on Friday 31 March 2017** and you can respond in the following ways:

1. Complete the templates on paper and return these to the school by hand
2. Complete the templates electronically and send these to educationconsultation@midlothian.gov.uk
