# Odds and Evens

One player has odd numbers, the other player has even numbers. Using numbers 0-9, you will try to make a row or a column add up to 15. You can draw more grids for games on the back.

Player 1 numbers (odd)

1	3	5	7	9

Player 2 numbers (even)

0	2	4	6	8

Example:

	3	
	8	1
	4	

15

Your turn:
