

Maths Scavenger Hunt

Try and find something for each box. You can draw or write what you find in the table on the next page.

1. Find an item which is about 1 metre long.	2. Find 6 straight lines (sticks/pencils etc) and make 2 triangles that look different from each other.	3. Draw or write the current time. (You can draw the clock face if it is a tricky time i.e. not o'clock or half past)
4. Find 6 different coins in your house and put them in order of value from smallest to largest.	5. Write down today's date in full e.g. Friday 19 th June.	6. Draw all the people in your house in order from tallest to smallest.
7. Find 9 objects (grapes, beans, counters, leaves) and split them into 3 equal groups.	8. Find a sphere.	9. Find an item you could measure out 1 litre of water with.
10. Find an example of tiling in your garden, house or out and about.	11. Find something symmetrical.	12. Find somewhere safe in your house to keep money.

Maths Scavenger Hunt

Draw or write what you find in each box to share with us.

1.	2.	3.
4.	5.	6.
7.	8.	9.
10.	11.	12.
